

Enterprise Resiliency Update

Robert Sellers • ISAC – August 2020

What is Enterprise Resiliency

- Enterprise Resiliency Program
 - Provides the methodology for Citizens to anticipate, absorb, respond to, and mitigate negative impact to the business from unexpected crisis events and business interruptions
- The Business Impact Analysis
 - Establishes the scope, requirements and practices for resiliency
 - Identifies the people, processes, technology, dependencies and resources
 - Analyzes the impact and maximum allowable downtime that is tolerable
 - Identifies existing strategies, gaps and risk mitigations to minimize impact

Business Impact Analysis Specifics

Citizens' Business Impact Analysis process established the system recovery order of all systems, including 34 Mission Critical Systems that must be recovered within 24 hours or less to support different Citizens business units.

Business Recovery Order per Business Process by Division and Criticality		
8 Hours	8 – 24 Hours	1 – 2 Days
