Supplemental Claims Legal Services

Topic

This Action Item seeks Board approval to contract with the law firms included in Attachment “A” to provide First Party Property claims-related legal services and supplement the existing panel of law firms procured under RFP 21-0012. Approval is requested for contracts which will mirror the existing contracts awarded under RFP 21-0012, with spend approval shared with the existing Board approved contracts (currently approved for \$150 million, with an additional \$50 million requested by separate Consent Item at this March 2023 meeting). The contracts have a base term that expires on February 2, 2027 with two (2) one-year optional renewal terms. The contracts do not require Citizens to make any assignments of work or pay any minimum amounts to the contracted firms. The proposed contracts will not increase the estimated cost of contracts previously awarded under RFP 21-0012 and the anticipated contract amount for the initial term remains \$500 million. Board approval will be requested if additional funding is needed due to a contract renewal, large storm events, or other unanticipated impacts.

History

Citizens regularly engages outside law firms to provide representation in claims-related pre-suit and litigation matters. This solicitation was designed to supplement the existing panel of outside defense counsel to provide legal representation in the First Party Property service area.

Citizens is currently contracted with ninety (91) outside defense firms to provide claims-related legal services on approximately 20,000 open/active litigated claims. The current panel was procured and approved by the Board in 2021 via RFP 21-0012. On December 15, 2021, the Board approved an initial \$50 million in spending authority with a request that Staff return to the Board to provide ongoing updates on pending litigation and to request additional spend authority as needed. The Board approved an additional \$50 million on July 13, 2022 and another \$50 million on December 7, 2022, bringing the total approved amount to \$150 million. Approval for an additional \$50 million is requested by separate Consent Item at this March 2023 meeting. The current panel is operating under a five (5) year initial term set to expire on February 2, 2027, with two (2), one (1) year renewal terms allowed for under the contract.

The First Party Property service area encompasses the bulk (98%) of Citizens’ existing litigation volume. The twenty-two (22) proposed firms will provide up to two-hundred and fifty (250) additional attorney resources in this critical service area. By adding these additional law firms, Citizens will ensure the ability to meet its ongoing and potential needs as it relates to both volume and location of resources. Citizens has an adequate amount of law firms to meet all current and future needs in the Third Party Property, Appellate and Subrogation service areas, thus these were not included in RFP 22-0021.

Despite having firms currently under contract to provide these services, a need to retain additional law firms has arisen due to the current volume of pending litigation resulting from the influx of new lawsuits associated with recent catastrophic events, increasing policy count, and market conditions within Florida. The firms currently under contract are presently able to meet Citizens’ needs within the First Party Property service area, albeit in a capacity that has placed significant strain on their resources and capabilities. However, further catastrophic weather events, increasing policy counts, or destabilizing market events could jeopardize Citizens’ ability to effectively manage claims litigation due to a likely

significant shortage of qualified outside counsel to handle the anticipated additional volume of litigation. Therefore, by contracting with additional outside claims counsel, Citizens can ensure that it has the resources needed to adequately address current and potential future volumes of pending litigation. In addition to addressing volume issues, adding these additional firms will allow Citizens to assign cases to a wider number of firms and ensure the proper utilization of the most qualified law firms available, who deliver a high level of service in accordance with the stated contractual requirements.
