

Holiday Home **Fire Safety** – Winter Edition

Don't let **safety** slip as the temperatures start to fall. As you gear up for guests and winter holidays, **be sure** to check this list twice and use these tips to stay fire **safe** this winter.

Use LED-bulb candles and tealights.

Have your chimney professionally cleaned and inspected.

Give your heater clear and uncluttered space.

Test smoke alarms and make sure every sleeping area has a nearby detector.

Don't overload outlets or power strips.

Water your live tree daily and away from heat sources.

Make sure not to block exits.

Turn handles inward to prevent bumping into them.
