	Annual Total Market - Historical Trend	17

Data Sources

QUASR data – Reported quarterly to the Florida Office of Insurance Regulation (OIR) from all admitted insurers for the Florida portion of their business

- Quarterly data from fourth quarter 2003 through third quarter 2025
- 09/30/2025 data pulled by the OIR on 11/14/25. Any submissions/changes made after this date will not be reflected in this report.
- Several insurers in the market are submitting QUASR data as “Trade Secret” protected information. However, the OIR provides overall data by carrier and policy type.
- Commercial non-residential data is not reported in QUASR and is therefore not included in this analysis (As of 06/30/2024, CNR-M and CNR-W made up approximately 1% of Citizens’ building counts)
- During the 3rd quarter of 2010, State Farm resubmitted data for 1Q2009 through 2Q2010. The totals remained the same but the aggregate change was a reduction in the policies in personal lines and an increase in commercial lines. This analysis reflects updated data.
- Prior to 2017, Citizens reported inforce premium in QUASR. This corresponds to the annualized premium charged for the quarter-end exposure values. Beginning in 2017, Citizens reports premium charged during the policy term as premium in QUASR. The only difference from prior reporting would be from the relatively small number of policies having mid-term exposure and premium adjustments. There is generally less than a 0.1% difference between the two premium values in aggregate.

FSLSO Top Coverages Report data – Reported quarterly to the Florida Surplus Lines Service Office (FSLSO)

- Annual data from 2002 through 2024
- 12/31/2024 data extracted from FSLSO 03/25/2025. Any changes made after this date will not be reflected in this report.
- Surplus Lines insurance information is included on the total market exhibits only
- Data has a strong seasonal cycle so it is aggregated to annual values for this analysis
- Insured value is not reported so analyses using FSLSO data are based on policy and premium data only
- Commercial non-residential cannot be separated from commercial residential and is therefore included in this analysis; to minimize this impact only Apartment and Condominium coverage codes are utilized.
- A subset of coverages that correspond to Citizens’ lines of business is selected from all coverages reported (see notes on relevant exhibits as to which specific coverages are included in each)

Market Penetration Report data – Reported annually to the Property Insurance Plans Service Office (PIPSO)

- Annual data from 2014 through 2024. Each report contains the most recent 5 years.
- PIPSO is a not for profit corporation that promotes the efficient and economical operation of the state residual property insurance plans
- Consideration for FL: 1,350 miles of coastline, unique litigation landscape, statutorily-required glidepath, reinsurance costs

Mapping of Citizens Policy Forms to QUASR Policy Types

QUASR Policy Types	Citizens Policy Forms
Personal Residential – Allied Lines - WIND ONLY DWELLINGS	DW-2
Personal Residential – Condominium Unit Owners	HO-6
Personal Residential – Condominium Unit Owners - WIND ONLY	HW-6
Personal Residential – Dwelling/Fire	DP-1, DP-3
Personal Residential – Dwelling/Fire - Mobile Homeowners	MDP-1
Personal Residential – Dwelling/Fire - Mobile Homeowners - WIND ONLY	MD-1
Personal Residential – Homeowners (Excl Tenant and Condo) - Owner Occupied	HO-3, HO-8
Personal Residential – Homeowners (Excl Tenant and Condo) - Owner Occupied - WIND ONLY	HW-2
Personal Residential – Mobile Homeowners	MHO-3
Personal Residential – Mobile Homeowners - WIND ONLY	MW-2
Personal Residential – Tenants	HO-4, MHO-4
Personal Residential – Tenants - WIND ONLY	HW-4, MHW-4
Personal Residential – Allied Lines	None
Personal Residential – Farmowners	None
Personal Residential – Primary Private Flood	None
Personal Residential – Excess Private Flood	None

Notes:

- 1) Commercial Residential is broken up by policy type but there are not unique Citizens policy forms
- 2) Commercial Non-Residential is not collected in QUASR
- 3) Flood related policy types are excluded from report

Market Share for Residual Carriers Based on Earned Premium All Property Lines

- 2) Includes states that have >1.0% market share in the latest year

Personal & Commercial Residential

**Market Share Based on Total Insured Value
For Policies that Include Wind Coverage
Florida Residential Property Insurance Market
Includes Trade Secret Insurers
QUASR Data as of September 30, 2025**

Insurer Category	Total Insured Value
Citizens	\$270,591,681,264
"Pups"	\$565,970,817,910
Florida-Based	\$2,482,924,700,239
Others	\$485,155,645,674
Total	\$3,804,642,845,088

The Florida Residential Property Insurance Admitted Market is divided into 4 major parts: (i) Citizens; (ii) Florida only subsidiaries "pups" of major national writers; (iii) Florida-based domestic companies; and (iv) non-domestic nationwide property writers, such as USAA, etc.

Notes:

- 1) Includes admitted insurers only
- 2) Surplus lines companies are not included in the market share calculation
- 3) Based on total insured value for policies with wind coverage
- 4) Percentages may be adjusted so the values add up to 100%. For example, Citizens' market share was 23.5% in 2011.

**Historical Market Share Based on Total Insured Value
For Policies that Include Wind Coverage

Notes:

- 1) Admitted insurer information is as reported to the Florida Office of Insurance Regulation (QUASR data) for the 4th quarter of each calendar year
- 2) Surplus Lines data reported to the FLSO; insured value data is not reported and thus is excluded from this analysis
- 3) Surplus Lines for personal residential include HO-3, HO-4, HO-6, HO-8 (starting in 2014), Dwelling, Dwelling Builders Risk, Mobile Home, and Windstorm
- 4) Surplus Lines policy growth in 2014 largely due to the inclusion of HO-8 (18,843) and increase in number of dwelling property policies (30,839 increase)
- 5) Surplus Lines for commercial residential includes only Apartment and Condominium coverage codes
- 6) For 2014-2018, estimates for insurers submitting data under "Trade Secret" protection are used. For 2019 and later, Actual Total Market data is used.
- 7) Reports prior to 2Q 2010 included more surplus lines coverage types. This analysis reflects updated data for all periods.

Notes:

- 1) Admitted insurer information is as reported to the Florida Office of Insurance Regulation (QUASR data) for the 4th quarter of each calendar year
- 2) Surplus Lines data reported to the FLSLO; insured value data is not reported and thus is excluded from this analysis
- 3) Surplus Lines for personal residential include HO-3, HO-4, HO-6, HO-8(starting in 2014), Dwelling, Dwelling Builders Risk, Mobile Home, and Windstorm
- 4) Surplus Lines policy growth in 2014 largely due to the inclusion of HO-8 (18,843) and increase in number of dwelling property policies (30,839 increase)
- 5) For 2014-2018, estimates for insurers submitting data under "Trade Secret" protection are used. For 2019 and later, Actual Total Market data is used.

Notes:

- 1) Includes admitted insurers (and Citizens) writing commercial residential property statewide
- 2) For 2014-18, estimates for insurers submitting data under "Trade Secret" protection are used. For 2019 and later, Actual Total Market data is used.
- 3) Starting in 2009, State Farm changed how their data was allocated. The aggregate was the same but it resulted in a reduction in personal lines and an increase in commercial lines.
- 4) 2002 data removed 1Q 2023

Notes:

- 1) Admitted insurer information is as reported to the Florida Office of Insurance Regulation (QUASR data) for the 4th quarter of each calendar year
- 2) Surplus Lines data reported to the FLSO; insured value data is not reported and thus is excluded from this analysis
- 3) Surplus Lines for commercial residential includes only Apartment and Condominium coverage codes
- 4) For 2014-2018, estimates for insurers submitting data under "Trade Secret" protection are used. For 2019 and later, Actual Total Market data is used.
- 5) Reports prior to 2Q 2010 included more surplus lines coverage types. This analysis reflects updated data for all periods.
