

Increased Fees for Sinkhole Inspections

septiembre 11, 2018

Due to fee increases from Citizens' third-party sinkhole inspectors, effective August 22, 2018, we have increased the fee for sinkhole inspections that are required to verify eligibility.

The inspection fees outlined below are split evenly between Citizens and the applicant. They are not refundable regardless of Citizens' underwriting decision.

Commercial Nonresidential Multiperil (CNR-M) and Commercial Residential Multiperil (CR-M)

The applicant must pay 50 percent of the inspection fee for the building type:

Type of Sinkhole Inspection	Total Fee	Unit
Type 1 Three stories or fewer, 5+ units	\$300	Per building
Type 2 Four to six stories	\$400	Per building
Type 3 Seven or more stories	\$70	Per hour

Resources

For more details about sinkhole inspections, log into the *Agents* site, and:

- Select **Programs** → **Sinkholes** → **Sinkhole Inspections**
- See the *Sinkhole Loss Exposure* section of the *Sinkhole Loss Coverage Request* endorsement (CIT SLC 07 14) for CNR-M and CR-M risks. Select **Commercial** → **CNR-M** or **CR-M** and then scroll down to the endorsement.
- Select **Search** → **Search Frequently Asked Questions (FAQs)**, and enter *sinkhole inspection* or *sinkhole inspection fee* into the search field.

Citizens also has policyholder resources on the *Public* site. Select **Insurance** → **Programs** → **Sinkholes** → **Sinkhole Inspections**.
