

Browser Support for Cost Estimator

January 09, 2017

Effective January 21, 2017, the cost estimator (also known as 360Value[®]) will be supported by *Internet Explorer[®] 9, 10 and 11 only*.

Users accessing the cost estimator from an unsupported browser will receive the following message:

- In response to Microsoft's release last year of a new version of Internet Explorer, 360Value now has updated system requirements. 360Value now supports Internet Explorer 9, 10, and 11.

Please note that Internet Explorer 7, Internet Explorer 8, and IE7 compatibility mode in newer versions are no longer supported by 360Value. Internet Explorer versions 7, 8, 9, and 10 are no longer receiving updates from Microsoft to address security vulnerabilities.

For information about updating your Internet Explorer browser, log in to the *Agents* site, and refer to FAQ Answer ID [3402](#).
